Be Choosy

Single or double grills, bistro, mid-size or deluxe, smooth or grooved cooking plates, or both. The combinations are vast, and the value undeniable! Constructed of durable stainless steel with seasoned cast iron plates, Globe sandwich grills are heavy-duty and portable, perfect for front or back of the house – whatever your operation needs.

BISTRO SERIES

10" x 10" single and double sandwich grills

“Bistro” refers to a small restaurant, but there is nothing small about the cooking power and options of this grill! All models come with matching top and bottom smooth or grooved plates.

Shine and **Sizzle**

Globe electric countertop griddles makes it easy to expand your menu offering for breakfast, lunch, or dinner. Featuring a spatula wide grease trough, these griddles were designed with operator protection in mind. The cooking surface will maintain a constant, selected temperature to ensure a product consistency. These griddles are available from light to medium duty, and backed by a 1-year parts and labor warranty.

Which countertop electric griddle best suits your kitchen's needs?

Economy griddle — 24" or 36" widths with 3/8" thick highly polished griddle plate and convenient ON/OFF switch for each element.

PG24E — 24" economy griddle

PG36E — 36" economy griddle

PG36E

GEG24

Medium duty griddle — 24" and 36" widths offer a generous cooking area. The 1/2" thick highly polished griddle plate and heat controls every 12" to 18" provide precise heating capability of this unit.

GEG24 — 24" medium-duty griddle

GEG36 — 36" medium-duty griddle

Small and Mighty

Add a little something fried to your menu with these Globe tabletop electric fryers. Designed for entry level and lighter duty cooking applications, these fryers produce 10-50 lbs. of fries per hour – frozen to finish – depending on model. All sizes are easy to clean with removable control box and element, and include nickel-plated fry baskets with insulated, cool-to-touch handles.

PF32E

PF16E

PF10E

MODELS

PF10E – 10 lb oil capacity

PF16E – 16 lb oil capacity

PF32E – 32 lb oil capacity

Ranges That Are Cool

Globe's Induction Ranges provide a cooking surface temperature precisely controlled by the pot. The system shuts down if pot is not large enough, empty or removed from the heating surface. Portable and lightweight, these are ideal for catering and display cooking, store easily and clean up quickly.

GIR18 – 7 power levels up to 1800 watts, this model really brings the heat! Stainless steel construction, ceramic cooktop, automatic empty pan safety shut-off and touch pad controls. Easily prepare food & keep it warm.

IR1800 – Perfect for food prep or a quick warm up! Stainless steel frame, 6 power levels up to 1800 watts, durable ceramic cooktop, proper pan detection and touch pad controls.

Cook & Keep Warm

*Performance, quality, and economy
- it's what you get from Chefmate!*

Chefmate® Warming Lamp - 500 watts of heat from two dome lamps and two shatterproof bulbs with ceramic bulb sockets provide constant warming. Sturdy construction and rubber feet for additional stability.

RC1

Chefmate® Rice Cooker - Cook up to 25 cups of rice in about 30 minutes. Sleek stainless steel finish, overheat protection, manual reset and single control switch make this unit efficient and easy to use.

Check out Globe's complete catalog!

FOOD PREP

Mixers, slicers, meat choppers, and weighing systems like portion control, label printing and legal-for-trade scales

GAS COOKING

Countertop fryers, floor fryers, charbroilers, griddles, hot plates, and stock pot ranges
